## INNOVATIVE PROGRAM

Our LLM in Law and Business program is open to students from all over the world who have successfully completed a graduate degree in law. This program is offered entirely in English. Practical and interdisciplinary, our program provides students with the tools they need to succeed in the competitive environment of international business law.

The LLM in Law and Business Program is comprised of a wide range of classes aimed at providing students with the rich mix of technical and non-technical skills necessary to a successful legal career in the international business environment.

These courses have been carefully selected not only to enhance the student's professional readiness, but also to satisfy the requirements necessary to obtain the certification of the *Répertoire National des Certifications* (« RNCP »), the French governmental authority responsible for certifying professional educational programs in France. The RNCP certification "Business Lawyer", Level 7 (« *Juriste d'affaires* », niveau 7) is registered at the RNCP under number 36627.
